VILLA TWIN PALMS

HANOVER, JAMAICA

Villa Twin Palms commands a strategic position on Barnes Hill with views that take in sixty miles of varying vistas including the ocean. The house is built on one level and the Great House influence is punctuated with accents of Rome through the graceful columns and shaded courtyards and here and there, subtle hints of a Moroccan palace.

There is a seamless flow to this house that enables the breeze to constantly waft through; lofty rooms with casket ceilings enhance the sense of space; calming shades of blue, coral and splashes of red create a restful and timeless ambiance and there is the distinct awareness of the outside being brought in from wherever you look. There are seven bedrooms to choose from that are contained in three suites and approached along a columned covered walkway that leads off from the central courtyard. This clever and inspired design facilitates complete privacy enabling families or friends to adjourn to their own space.

The veranda is the centerpiece to the living space at Villa Twin Palms, offering space to sit, a table at which to dine, a bar to sit at and a pool deck for sunning. The seven multi-tiered pools are centered by a sixty-foot infinity-edge lap pool, with a kiddie wading pool and whirlpools either side.
