VILLA PEDUZZI

PIGRA, LAKE COMO

Villa Peduzzi is an astounding residence redefining high-altitude luxury living. Perched in dramatic natural environs above the beautiful Lake Como, this home presents a bold mediation between aristocratic elegance and ultra-chic industrial design.

This residence presents a masterclass of understated luxury, a subtle approach permitting the exceptional balance of past and present while leaving room for the unparalleled alpine views streaming into nearly every square inch of this 8,500 sq. ft residence. A harmonious and minimalist design flaunts symmetry, a monochrome palette, and clean vertices inside. This approach allows the distinct Art-Nouveau influences of this heritage building to be felt, such as the gorgeous crown molding and frescoes adorning the bedrooms. Plush sofas and mid-century style console tables and furnishings toe the line between modern comfort and timeless elegance. The home comprises three main floors, a basement navigated by stairs, and an in-home elevator. Eight sumptuous bedrooms provide the utmost comfort and discretion for fourteen guests. The fantastically autonomous Villa Peduzzi offers outstanding common areas and amenities from a spacious living area, two kitchens, a dining room, and a study. An additional media room, multiple rooftop terraces with a bar, and a wellness center complete with gym and yoga facilities leave recreation, leisure, and entertainment options effectively endless.

There are plenty of outdoor lounge areas amongst the property's extensive grounds, from shaded pergolas to expansive decks rivaling the world's most awe-inspiring viewpoints. A short stroll from the villa will lead guests to the pool house overlooking the sleek infinity-edge pool boldly extending into the glorious mountain views.
