Aesthetically immaculate interiors present a fresh take on luxury residential living. A stunning collision of high culture glamor and Southeast Asian exoticism greets guests in dynamic free-flowing interiors. Sheena's unique polygonal exteriors reflect themselves in gorgeously zoned-out, open concept interiors sculpted by a network of sliding glass doors, louvered accents, and dainty sliding curtains. Soaring double-height ceilings are garnished with a commanding early-century crystal chandelier imparting some old Hollywood glitz to an ultra-plush serene seating arrangement. A glorious fireplace with shimmering Calacatta marble surround is flanked by a gorgeous expressionist piece and a commanding buddha statuette, effectively fusing the occident and the orient. Scintillating, chic, and globetrotting interiors are playful and conceived through a keen aesthetic eye. Extraordinarily modular spaces interact with echelons of sliding glass before inexhaustible urban panoramas. This lavish vacation rental features six stunning ensuite bedrooms, each offering a unique gradient of haute couture charm and opulence. Twelve guests may be accommodated in total discretion, comfort, and luxury.

The stunning exteriors match the pedigree of the interior design, with expansive glass-railed decks that maximally interact with far-reaching urban vistas. An incredible infinity edge 80' lap pool and spa juts out authoritatively towards the horizon, offering the ultimate venue to witness the glittering electrical grid below come alive.

LOS ANGELES

BEVERLY HILLS

Los Angeles holds many distinctions. Its ethereal and otherworldly character earns it the beloved moniker, the City of Angels. It may be the birthplace of Hollywood, but it is much more than just red carpets and silver screen stars. Having a thriving art scene, LA is an absolute cultural mecca with more than 100 museums, like the Los Angeles County Museum of Art (LACMA) with seminal artwork. The city has an exciting medley of restaurants and bars to choose from, and the Art Deco Griffith Observatory high up in the Hollywood Hills, with its Samuel Oschin Planetarium, Tesla Coil, and cameos in several iconic films, is one of LA's most distinctive landmarks. Electric with ethnic diversity and an uncanny Mediterranean climate, Los Angeles is a world unto itself.
