PLAYA CALETON

CABRERA

The Dominican's Playa Caleton is a slice of heaven, standing shoulder to shoulder with the world's enchanting coastlines. Serene, secluded, and stunning, this crescent-shaped cove is gently sculpted by impossibly turquoise crystalline waters. Fragrant foliage perfectly encloses its shores, insulating bathers with an ethereal quiet and tranquility reminiscent of the most remote tropical Islets. Sculpted faces of Taino Indians embellish this idyllic beach with mysticism and intrigue, found easily en route from the sleepy fishing village of Rio San Juan.
