LA DATCHA EXPEDITION YACHT 252

MOTOR OVER 250FT, YACHTS

La Datcha Expedition Yacht 252 is an impressive 252 ft yacht, one of the flagship vessels of the famed Damen Yachts shipbuilders built in 2020, combining the most refined luxury living with limitless expedition capabilities. Replete with modern elements and perfected to the utmost comfort, safety, and entertainment standards, she is synonymous with nautical excellence and spontaneity on the sea. With a cruising speed of 14.5 knots, she is the ultimate choice for the world's most remote destinations while providing incomparable experiences to match.

Hand-picked furnishings, from a shimmering table, resembling an ice floe to Aztec-inspired wall paneling, add a unique feel to grand interiors. Full-height windows dominate the main saloon, observation lounge, and owner's suite and let in swathes of light. The dedicated observation lounge, 9m above water, is particularly eye-catching, offering 270-degree forward-facing views of the dramatic scenery. Another remarkable observation area is on the upper deck, completed with a jacuzzi. The main salon is the perfect place for guests to gather and enjoy a glass of champagne or a gourmet meal prepared by a discrete and professional onboard staff. Up to 12 guests can be accommodated across six beautifully detailed cabins. The fantastic owner's suite, complete with an observation lounge and private deck area, is a consummate luxury. Immaculately presented, using the finest materials and detailed art pieces, she radiates calmness. Equally well-appointed, each cabin comes with an en-suite and a walk-in wardrobe. Twenty-five crew members are also on hand to ensure all of your needs are attended to.

Her expansive deck areas offer plenty of space for socializing. A fully certified primary helideck dominates the main deck. It is almost unparalleled in the number of tenders and toys on offer to any charterer. The two commercially licensed and operated helicopters mean access to the most remote areas of the far-flung corners of the earth isn't out of reach. She features a dive center and decompression chamber and carries a submersible, four wave runners, two expedition ribs, and two snow scooters.
